Re: Spirit of Scotland
 By: John McDonald

Dear Sir or Madame,

This is to advise you that John McDonald, the above referenced member of the International Documentary Association, has been accepted into our Fiscal Sponsorship Program. We are pleased to support Mr. McDonald's documentary, *Spirit of Scotland*.

On behalf of the International Documentary Association, I would like to urge you to support *Spirit of Scotland*. The filmmaker has demonstrated high professional standards and the project promises to be a contribution to both the media arts and cultural history. We also found the budget to be entirely feasible.

The International Documentary Association has been in existence since 1982, and for some time has allowed members to use its 501(c)(3) status to solicit charitable contributions for selected documentary projects and to apply for grants to agencies which require such status. We have agreed to act in that capacity in this instance.

The International Documentary Association will administer any funds received in support of this project. Donations to the IDA are tax deductible to the extent allowed by the law.

We look forward to working with you and appreciate your time in considering John McDonald's documentary film, *Spirit of Scotland*.

Very truly yours,

Eddie Schmidt
